

Aetna Better Health of Missouri Enrollment Limit

Aetna Better Health of Missouri reached the managed care enrollment limit of 60% in the Eastern region.

Pursuant to the MO HealthNet Managed Care contract, paragraph 2.12.8, Aetna Better Health of Missouri will not be offered as a choice for enrollment or receive enrollments through the automatic assignment algorithm effective August 3, 2015. However, Aetna Better Health of Missouri will continue to receive new members as a result of newborn enrollments, reassignments when a member loses and regains MO HealthNet Managed Care eligibility within a sixty (60) day period, when other family or case members are members of Aetna Better Health of Missouri, for the member's continuity of care, or for just cause determined by the state agency.

Home State Health Plan and Missouri Care continue to be offered as a choice for enrollment or receive enrollment through the automatic assignment algorithm in the Eastern region. Aetna Better Health of Missouri, Home State Health Plan, and Missouri Care are the Managed Care health plan choices in the Central and Western regions.

An evaluation of each Managed Care health plan's enrollment market share shall take place in the last week of each month.
